

Machining

Machine Info and Pricing

HAAS

HAAS is known for how affordable all of their machines are and the ease of use. Parts are easily accessible and they have great customer service in North America. Their machines are ideal for shops that need dependable performance without the premium pricing.

DMG Mori

DMG Mori is known for their high-precision German-Japanese engineering. They have extremely rigid machines, long-lasting components, and high-end controls for the machine. DMG Mori is best suited for tight-tolerance or high-volume production.

Mazak

Mazak is known for being durable and having industrial-grade machines. They have a wide and excellent support network. They are also known for their conversational control (Mazatrol).
